

FROM TEXT TO SPEECH with EASE

**With ScannaR, the benefits
speak for themselves!**

**The ScannaR is a flat bed scanner that can translate the
printed word into the spoken one at the press of a button**

You can read letters, brochures, newspapers, books and other print materials with ease using the ScannaR.

Scan and Save

Scannar allows you to scan any printed material and gives you the option to read again later. ScannaR is ideal for educators and students of all levels for scanning and recording textbooks, worksheets, tests and exams, eliminating the tedious job of recreating print resources.

Designed with you in mind

ScannarR's modern design looks good wherever it is. If you are travelling away from home or the office, the optional carry bag means you can have access to printed documents at the touch of a button.

So easy to use

ScannaR is simple to operate – all you have to do is place a document on the scanner, press a button, and the ScannaR will read the text in a natural sounding speech... it really is that easy. To add a filename to your saved document, just use the built-in microphone.

- Control speed and volume of speech at the turn of a dial
- Store up to 500,000 pages of text at any time
- Choose from a wide variety of languages
- Only 7 buttons are needed to perform all functions
- Direct connect provided for BrailleNote users

Dimensions: 48.3cm(L) x 33cm(W) x 8.9(D) Weight 6.8kgs

For those times when only a paper is available there's ScannaR
